Query Document (MS SQL)

Problem Statement:

DASHBOARD 1: SUMMARY

Part A. Good Loan v Bad Loan KPI's

REQUIREMENTS

- | | |
|------------------------------------|-----------------------------------|
| Good Loan: | Bad Loan: |
| • Good Loan Application Percentage | • Bad Loan Application Percentage |
| • Good Loan Applications | • Bad Loan Applications |
| • Good Loan Funded Amount | • Bad Loan Funded Amount |
| • Good Loan Total Received Amount | • Bad Loan Total Received Amount |

Part B. Loan Status Grid View

In order to gain a comprehensive overview of our lending operations and monitor the performance of loans, we aim to create a grid view report categorized by 'Loan Status.' By providing insights into metrics such as 'Total Loan Applications,' 'Total Funded Amount,' 'Total Amount Received,' 'Month-to-Date (MTD) Funded Amount,' 'MTD Amount Received,' 'Average Interest Rate,' and 'Average Debt-to-Income Ratio (DTI),' this grid view will empower us to make data-driven decisions and assess the health of our loan portfolio.

DASHBOARD 2: OVERVIEW

CHARTS

- Monthly Trends by Issue Date (Line Chart):** To identify seasonality and long-term trends in lending activities
- Regional Analysis by State (Filled Map):** To identify regions with significant lending activity and assess regional disparities
- Loan Term Analysis (Donut Chart):** To allow the client to understand the distribution of loans across various term lengths.
- Employee Length Analysis (Bar Chart):** How lending metrics are distributed among borrowers with different employment lengths, helping us assess the impact of employment history on loan applications.
- Loan Purpose Breakdown (Bar Chart):** Will provide a visual breakdown of loan metrics based on the stated purposes of loans, aiding in the understanding of the primary reasons borrowers seek financing.
- Home Ownership Analysis (Tree Map):** For a hierarchical view of how home ownership impacts loan applications and disbursements.

DASHBOARD 3: DETAILS

GRID

Need for a comprehensive 'Details Dashboard' that provides a consolidated view of all the essential information within our loan data. This Details Dashboard aims to offer a holistic snapshot of key loan-related metrics and data points, enabling users to access critical information efficiently.

Objective:

The primary objective of the Details Dashboard is to provide a comprehensive and user-friendly interface for accessing vital loan data. It will serve as a one-stop solution for users seeking detailed insights into our loan portfolio, borrower profiles, and loan performance.
